# GeneX

Genetics made practical

Typical guides fall short
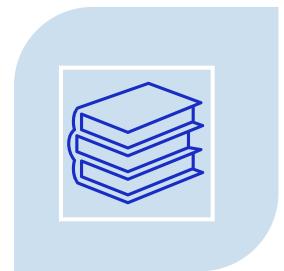

- There are many parenting books and guidelines on the market

- But typical parenting guides don't fit every child.

- Especially when a genetic condition is in the picture.

Birth   2m   4m   6m   8m   10m
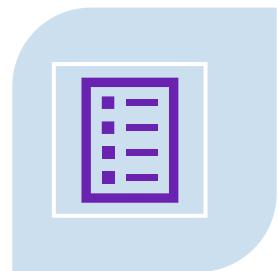

Diagnosis... then what?

FOR MILLIONS OF FAMILIES NAVIGATING GENETIC OR DEVELOPMENTAL CONDITIONS
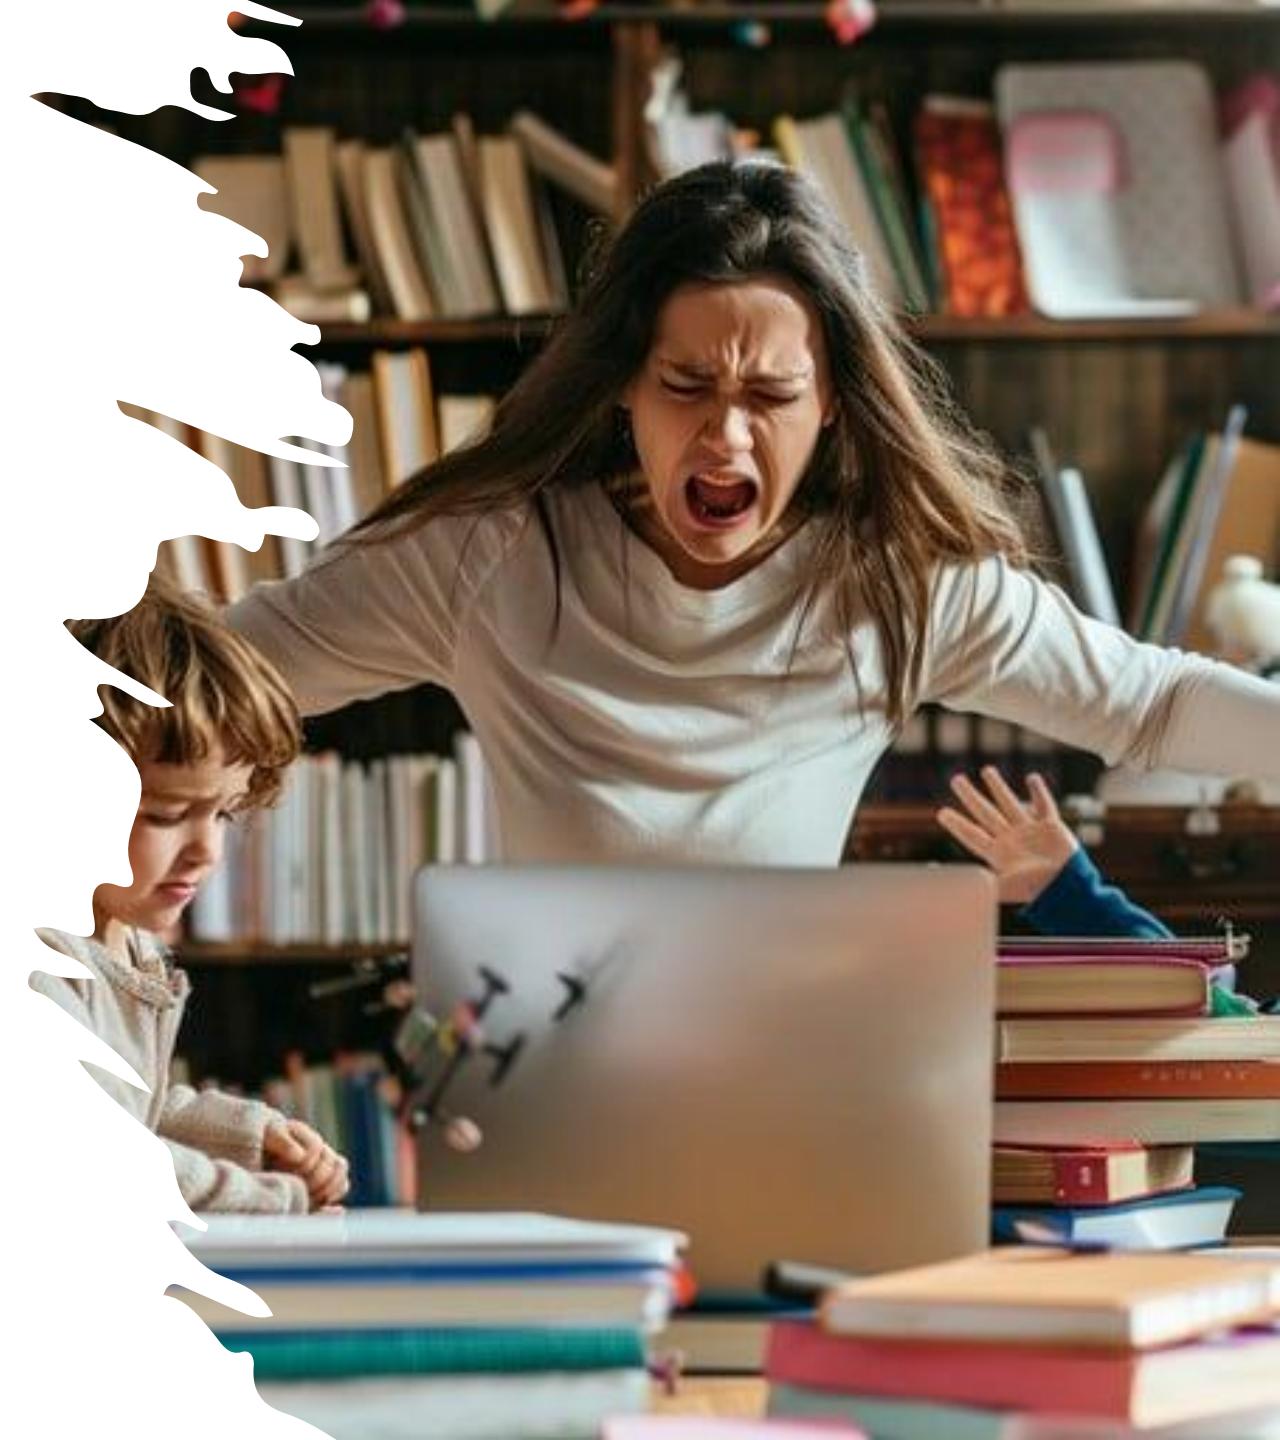

GUIDANCE IS FRAGMENTED

ROUTINES ARE HARD TO FOLLOW

AND SUPPORT OFTEN FEELS OUT OF REACH.

Genex – Genetics Made Practical

That's why we built Genex
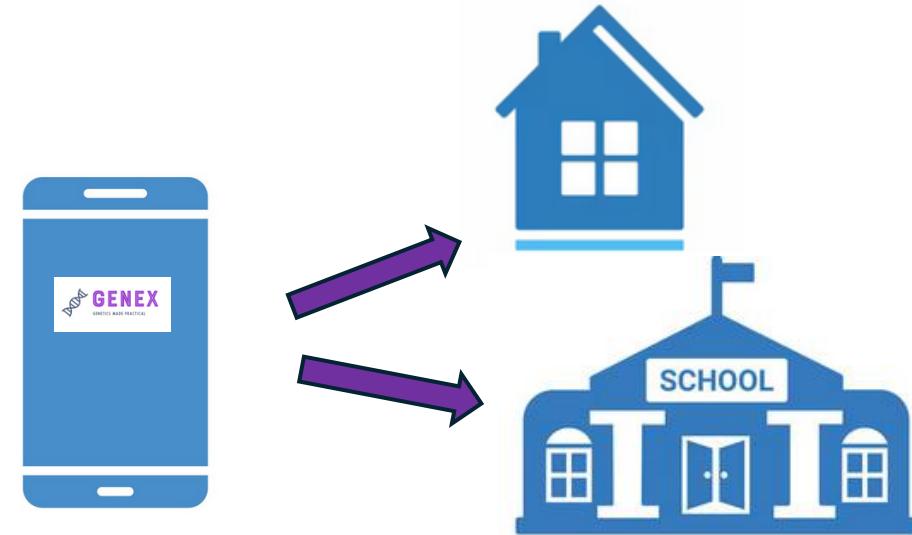

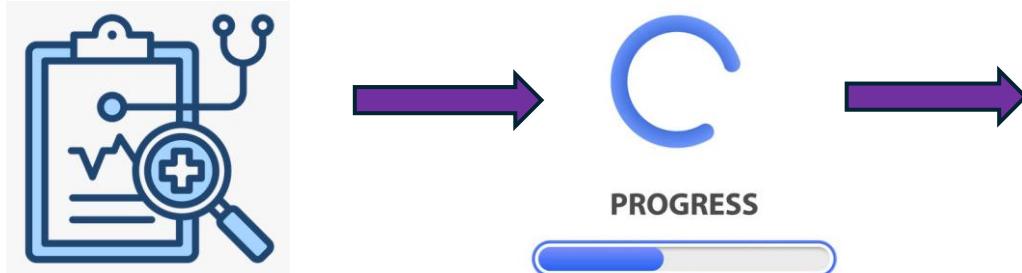

A privacy-first app

That uses generative AI

And based on your child's needs

Builds clear, daily, bite-sized activities

You can actually use it at home and at school
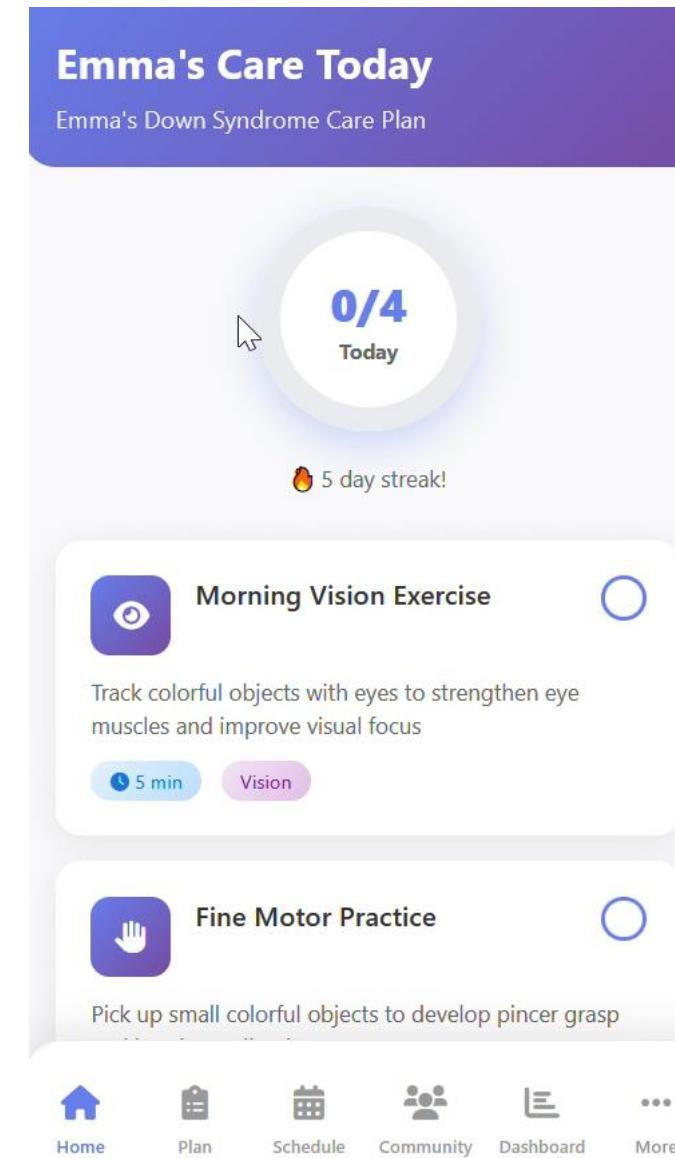

Genex – App

With curated:

- 5–10 minutes exercises
- gentle reminders
- progress tracking
- community support

Helps:

- families gain confidence
- schools stay aligned
- and children get consistent help - every day.

Genex – Dashboard

With:
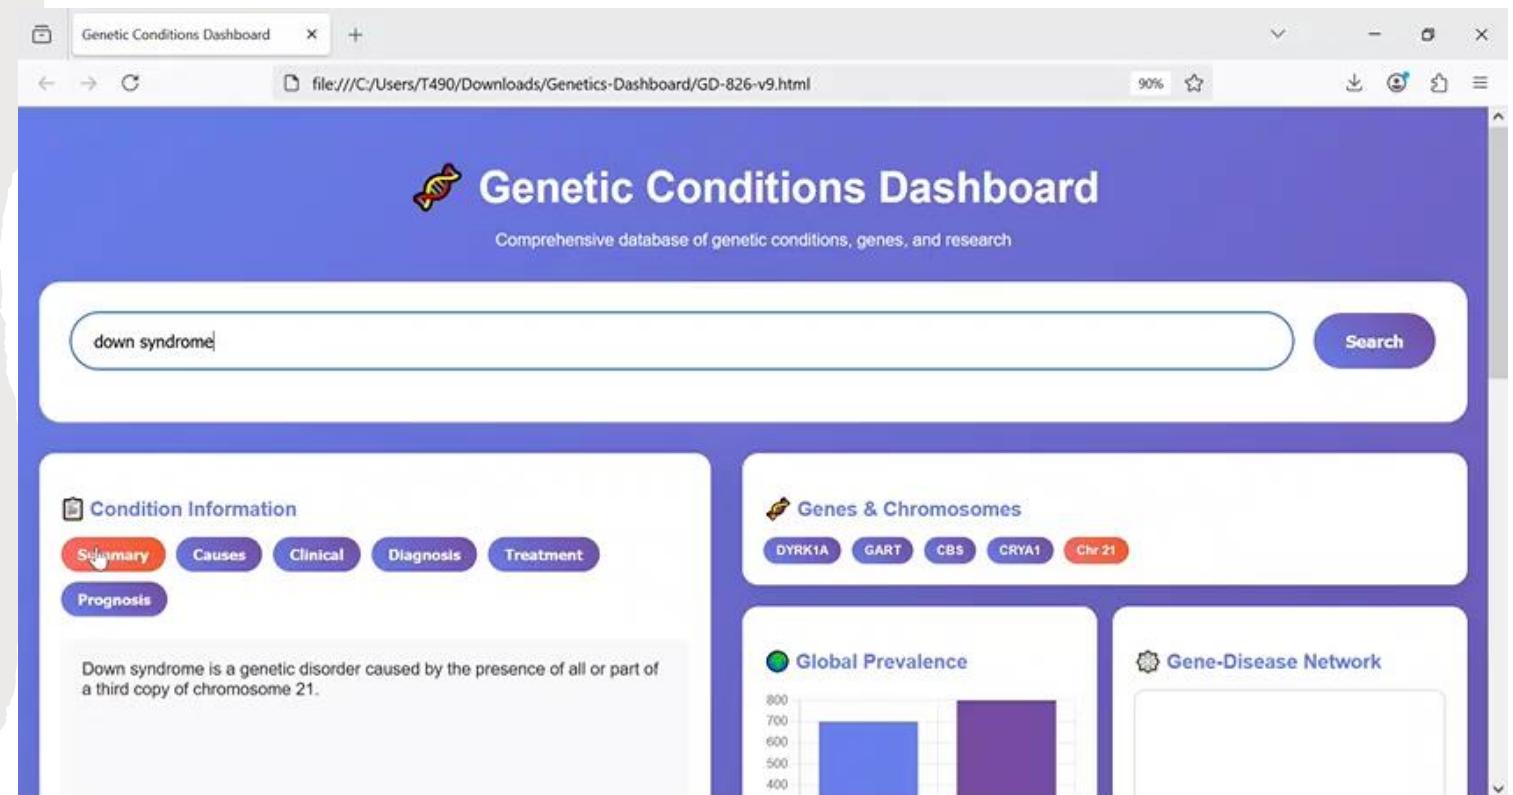

Search and condition cards with source and confidence

At a glance visuals

Research lens including centers and top clinicians

Helps:

- Families understand their child's situation better
- Know what to ask your doctor
- Providers give feedback and modify suggestions

Together, we make care simpler, smarter, and supportive.
