

C01 — Noah (10 months)

Diagnosis: Down syndrome

1. Child Profile

Name: Noah
Age: 10 months (10 months)
Diagnosis: Down syndrome
Daily time: 10 min/day

Key concerns:

- Not sitting independently yet
- Hypotonia
- slow feeding
- socially engaged

2. Parent Input (questions + answers)

- [4m | postural_control_and_transitions] holds head steady without support when you are holding him -> sometimes (ok)
- [4m | postural_control_and_transitions] pushes up onto elbows or forearms when on tummy -> sometimes (ok)
- [4m | fine_motor_hand_use] bring hands to mouth -> yes (ok)
- [6m | postural_control_and_transitions] leans on hands to support herself when sitting -> (ok)
- [6m | postural_control_and_transitions] pushes up with straight arms when on tummy -> sometimes (ok)
- [6m | postural_control_and_transitions] rolls from tummy to back -> sometimes (ok)
- [9m | postural_control_and_transitions] gets to sitting position by herself -> no (ok)
- [9m | postural_control_and_transitions] sits without support -> no (ok)
- [9m | fine_motor_hand_use] moves things from one hand to her other hand -> sometimes (ok)
- [2m | early_vocalization_and_babbling] makes sounds other than crying -> yes (ok)
- [2m | receptive_language] reacts to loud sounds -> yes (ok)
- [4m | early_vocalization_and_babbling] makes cooing sounds like ooooo or aahhh -> yes (ok)

Full transcript is preserved in JSON output.

Focus areas:

- Movement / Physical
- Language / Communication
- Cognitive / Adaptive

4. Daily Activities

1. Tummy Time with Arm Support (5 min) — needs_special_support

Place Noah on his tummy on a soft surface. Use a rolled towel or small pillow under his arms to help him push up onto his elbows. Encourage him to look around and reach for toys placed j...

2. Sound Imitation (5 min) — needs_special_support

Make different sounds like 'ma', 'ba', and 'da' and encourage Noah to imitate you. Use a mirror to make it more engaging. Keep the activity in short bouts and pause for rest if the child tires.

3. Supported Sitting Practice (5 min) — needs_special_support

Sit Noah on the floor with pillows or cushions around him for support. Encourage him to lean forward and reach for toys placed in front of him. Provide gentle support to help him maint...

4. Turn Taking Sounds (5 min) — needs_special_support

Sit face-to-face with Noah and take turns making sounds. Start with a sound and wait for him to respond before making another sound. Keep the activity in short bouts and pause for rest if ...

5. Toy Grasping and Bringing to Mouth (5 min) — needs_special_support

Give Noah a soft toy that is easy to grasp. Encourage him to bring it to his mouth. You can help guide his hand if needed. This promotes fine motor skills and hand-mouth coordination. K...

5. Summary

This plan prioritizes Movement / Physical, Language / Communication, Cognitive / Adaptive for Noah. The activities are intended to be short, parent-friendly, and aligned with the developmental areas that appeared most delayed or most worth enriching in the interview.

C02 — Maya (18 months)

Diagnosis: No formal diagnosis

1. Child Profile

Name: Maya
Age: 18 months (18 months)
Diagnosis: No formal diagnosis
Daily time: 10 min/day

Key concerns:

- No words yet
- uses gestures
- understands simple commands
- good eye contact

2. Parent Input (questions + answers)

- [9m | gestural_communication] lifts arms up to be picked up -> yes (ok)
- [9m | early_vocalization_and_babbling] makes a lot of different sounds like mamamamama and bababababa -> yes (ok)
- [12m | gestural_communication] waves goodbye -> yes (ok)
- [12m | expressive_language] calls parents mama or dada or another special name -> no (ok)
- [12m | receptive_language] understands no so pauses briefly or stops when you say it -> yes (ok)
- [15m | gestural_communication] points to ask for something or to get help -> yes (ok)
- [15m | receptive_language] follows directions given with both a gesture and words for example she gives you a toy when you hold out your hand and say give me the toy -> yes (ok)
- [15m | receptive_language] looks at a familiar object when you name it -> yes (ok)
- [9m | exploration_and_object_use] bangs to things together -> yes (ok)
- [9m | object_permanence_and_problem_solving] looks for objects when dropped out of sight -> yes (ok)
- [12m | object_permanence_and_problem_solving] looks for things he sees you hide like a toy under a blanket -> yes (ok)
- [12m | exploration_and_object_use] puts something in a container like a block in a cap -> yes (ok)

Movement / Physical	18	0	no_special_support
Social / Emotional	18	0	no_special_support
Language / Communication	13	5	needs_special_supp
Cognitive / Adaptive	15	3	monitor_and_enrich

Focus areas:

- Language / Communication
- Cognitive / Adaptive

4. Daily Activities

- 1. Toy Naming Game (5 min) — needs_special_support
Hold up a familiar toy and say its name clearly. Encourage Maya to look at the toy when you say its name. Repeat with different toys.
- 2. Block Stacking (5 min) — monitor_and_enrich
Encourage Maya to stack two small blocks. You can model the activity by stacking the blocks yourself first, then let her try. Celebrate her efforts!
- 3. Follow the Direction (5 min) — needs_special_support
Give Maya a simple one-step direction like 'give me the toy' without gestures. Praise her when she follows the direction.
- 4. Chore Imitation (5 min) — monitor_and_enrich
Model a simple chore like sweeping with a broom. Hand her a small broom or a toy broom and encourage her to copy your actions.
- 5. Point and Ask (5 min) — needs_special_support
Place a few toys within reach. Encourage Maya to point to a toy she wants and say 'that one' or another simple word. Respond to her request.

5. Summary

This plan prioritizes Language / Communication, Cognitive / Adaptive for Maya. The activities are intended to be short, parent-friendly, and aligned with the developmental areas that appeared most delayed or most worth enriching in the interview.

C03 — Leo (2y 2m)

Diagnosis: Autism spectrum disorder

1. Child Profile

Name: Leo
Age: 2y 2m (26 months)
Diagnosis: Autism spectrum disorder
Daily time: 10 min/day

Key concerns:

- Limited eye contact and few words
- Repetitive play
- transitions hard
- picky eating

2. Parent Input (questions + answers)

- [12m | expressive_language] calls parents mama or dada or another special name -> sometimes (ok)
- [12m | receptive_language] understands no so pauses briefly or stops when you say it -> yes (ok)
- [12m | gestural_communication] waves goodbye -> sometimes (ok)
- [15m | expressive_language] tries to say or or two words besides mama or dada like ba for ball or da for dog -> sometimes (ok)
- [15m | receptive_language] follows directions given with both a gesture and words for example she gives you a toy when you hold out your hand and say give me the toy -> sometimes (ok)
- [15m | receptive_language] looks at a familiar object when you name it -> yes (ok)
- [18m | expressive_language] tries to say three or more words besides mama or dada -> sometimes (ok)
- [18m | receptive_language] follows one step directions without any gestures like giving you the toy when you say give it to me -> sometimes (ok)
- [12m | social_engagement_and_joint_attention] play games with you like pat a cake -> sometimes (ok)
- [15m | social_engagement_and_joint_attention] claps when excited -> sometimes (ok)
- [15m | social_engagement_and_joint_attention] shows you affection like hugs or cuddles or kisses you -> sometimes (ok)
- [15m | social_engagement_and_joint_attention] shows you an object she likes -> sometimes (ok)

3. Genex Output

Domain	Dev age	Gap	Tier

C04 — Sofia (3y 1m)

Diagnosis: Prematurity history

1. Child Profile

Name: Sofia
Age: 3y 1m (37 months)
Diagnosis: Prematurity history
Daily time: 10 min/day

Key concerns:

- Speech hard to understand
- Fine motor delay
- good comprehension

2. Parent Input (questions + answers)

- [24m | self_help_motor_skills] eats with a spoon -> sometimes (ok)
- [24m | gross_motor_mobility_and_coordination] kicks a ball -> yes (ok)
- [24m | gross_motor_mobility_and_coordination] runs -> yes (ok)
- [30m | fine_motor_hand_use] turns book pages one at a time when you read to her -> sometimes (ok)
- [30m | fine_motor_hand_use] uses hands to twist things like turning doorknobs or unscrewing lids -> sometimes (ok)
- [30m | gross_motor_mobility_and_coordination] jumps off the ground with both feet -> yes (ok)
- [36m | fine_motor_hand_use] strings items together like large beads or macaroni -> sometimes (ok)
- [36m | self_help_motor_skills] puts on some clothes by himself like loose pants or a jacket -> sometimes (ok)
- [36m | self_help_motor_skills] uses a fork -> sometimes (ok)
- [18m | expressive_language] tries to say three or more words besides mama or dada -> yes (ok)
- [18m | receptive_language] follows one step directions without any gestures like giving you the toy when you say give it to me -> yes (ok)
- [24m | expressive_language] says at least two words together like more milk -> yes (ok)

Full transcript of the interview.

Focus areas:

- Movement / Physical
- Language / Communication
- Social / Emotional

4. Daily Activities

1. Ball Kicking Fun (5 min) — needs_special_support
Set up a soft ball in a clear space. Encourage Sofia to kick the ball with her foot. You can roll the ball back to her to keep the game going.
2. Clean-Up Time Together (5 min) — needs_special_support
At clean-up time, say 'It's clean-up time!' and encourage Sofia to help pick up toys. Show her how to do it and praise her efforts.
3. Spoon Practice (5 min) — needs_special_support
Provide a bowl of soft food (like yogurt or applesauce) and a spoon. Encourage Sofia to scoop the food and bring it to her mouth, offering help as needed.
4. Look-at-Me Game (5 min) — needs_special_support
Take turns showing each other something fun you can do, like a silly face or dance move. Encourage Sofia to say 'Look at me!' when it's her turn.
5. Stair Climbing (5 min) — needs_special_support
Find a set of stairs. With support, help Sofia walk up a few steps, holding her hand for balance. Encourage her to place one foot on each step.

5. Summary

This plan prioritizes Movement / Physical, Social / Emotional, Language / Communication for Sofia. The activities are intended to be short, parent-friendly, and aligned with the developmental areas that appeared most delayed or most worth enriching in the interview.

C05 — Ethan (4y 6m)

Diagnosis: Cerebral palsy

1. Child Profile

Name: Ethan
Age: 4y 6m (54 months)
Diagnosis: Cerebral palsy
Daily time: 10 min/day

Key concerns:

- Trouble keeping up in preschool
- Self-care delays
- frequent falls
- difficulty with stairs

2. Parent Input (questions + answers)

- [24m | gross_motor_mobility_and_coordination] kicks a ball -> sometimes (ok)
- [24m | gross_motor_mobility_and_coordination] runs -> sometimes (ok)
- [24m | gross_motor_mobility_and_coordination] walks not climbs up a few stairs with or without help -> with_help (ok)
- [30m | gross_motor_mobility_and_coordination] jumps off the ground with both feet -> sometimes (ok)
- [30m | self_help_motor_skills] takes some clothes off by himself like loose parts or an open jacket -> sometimes (ok)
- [30m | fine_motor_hand_use] turns book pages one at a time when you read to her -> with_help (ok)
- [36m | self_help_motor_skills] puts on some clothes by himself like loose pants or a jacket -> sometimes (ok)
- [36m | self_help_motor_skills] uses a fork -> sometimes (ok)
- [36m | fine_motor_hand_use] strings items together like large beads or macaroni -> with_help (ok)
- [30m | concepts_and_following_directions] follows two step instructions like put the toy away and close the door -> yes (ok)
- [30m | concepts_and_following_directions] shows she knows at least one color like pointing to a red crayon when you ask which one is red -> yes (ok)
- [30m | object_permanence_and_problem_solving] shows simple problem solving skills like standing on a small stool to reach something -> with_help (ok)

C06 — Amina (5 years)

Diagnosis: Global developmental delay

1. Child Profile

Name: Amina
Age: 5 years (60 months)
Diagnosis: Global developmental delay
Daily time: 10 min/day

Key concerns:

- Learning and routines are hard
- Short attention span
- follows only simple directions

2. Parent Input (questions + answers)

- [30m | concepts_and_following_directions] follows two step instructions like put the toy down and close the door -> no (ok)
- [30m | concepts_and_following_directions] shows she knows at least one color like pointing to a red crayon when you ask which one is red -> sometimes (ok)
- [30m | object_permanence_and_problem_solving] shows simple problem solving skills like standing on a small stool to reach something -> no (ok)
- [36m | safety_awareness] avoids touching hot objects like the stove when you warn her -> yes (ok)
- [36m | pre_academic_skills] draws a circle when you show her how -> no (ok)
- [48m | pre_academic_skills] draws a person with three or more body parts -> no (ok)
- [48m | concepts_and_following_directions] names a few colors or items -> yes (ok)
- [48m | concepts_and_following_directions] tell what comes next in a well known story -> sometimes (ok)
- [48m | gross_motor_mobility_and_coordination] catches a large ball most of the times -> sometimes (ok)
- [48m | fine_motor_hand_use] holds crayon or pencil between fingers and thumb not fist -> sometimes (ok)
- [48m | self_help_motor_skills] serves herself food or pours water with adult supervision -> sometimes (ok)
- [60m | self_help_motor_skills] buttons some buttons -> sometimes (ok)

C08 — Emma (2y 8m)

Diagnosis: Suspected childhood apraxia of speech

1. Child Profile

Name: Emma
Age: 2y 8m (32 months)
Diagnosis: Suspected childhood apraxia of speech
Daily time: 10 min/day

Key concerns:

- Very limited speech output
- Uses gestures
- gets frustrated
- inconsistent sounds

2. Parent Input (questions + answers)

- [15m | gestural_communication] points to ask for something or to get help -> yes (ok)
- [15m | expressive_language] tries to say or or two words besides mama or dada like ba for ball or da for dog -> sometimes (ok)
- [15m | receptive_language] follows directions given with both a gesture and words for example she gives you a toy when you hold out your hand and say give me the toy -> yes (ok)
- [18m | expressive_language] tries to say three or more words besides mama or dada -> no (ok)
- [18m | receptive_language] follows one step directions without any gestures like giving you the toy when you say give it to me -> yes (ok)
- [24m | expressive_language] says at least two words together like more milk -> no (ok)
- [24m | gestural_communication] uses more gestures than just waving or pointing like blowing a kiss or nodding yes -> yes (ok)
- [24m | receptive_language] points at least two body parts when you ask her to show you -> yes (ok)
- [18m | imitation_and_play_skills] copies you doing chores like sweeping with a broom -> yes (ok)
- [18m | imitation_and_play_skills] plays with toys in a simple way like pushing a toy car -> yes (ok)
- [24m | exploration_and_object_use] holds something in one hand while using the other hand for example holding a container and taking the lid off -> yes (ok)
- [24m | imitation_and_play_skills] plays with more than one toy at the same time like putting food on a toy plate -> yes (ok)

C09 — Zain (4 years)

Diagnosis: Attention and self-regulation concerns (possible ADHD)

1. Child Profile

Name: Zain
Age: 4 years (48 months)
Diagnosis: Attention and self-regulation concerns (possible ADHD)
Daily time: 10 min/day

Key concerns:

- Very active
- impulsive
- Big emotional reactions
- interrupts

2. Parent Input (questions + answers)

- [30m | peer_interaction_and_social_rules] plays next to other children and sometimes plays with them -> yes (ok)
- [30m | social_engagement_and_joint_attention] follos simple routines when told like helping to pick up toys when you say it is clean up time -> sometimes (ok)
- [30m | social_engagement_and_joint_attention] shows you what she can do by saying look at me -> yes (ok)
- [36m | emotional_regulation] calms down within 10 minutes after you leave her like at childcare drop off -> yes (ok)
- [36m | peer_interaction_and_social_rules] notices other children and joins them to play -> yes (ok)
- [48m | peer_interaction_and_social_rules] asks to go play with children if none are around like can I play with Alex -> yes (ok)
- [48m | peer_interaction_and_social_rules] changes behavior based on where she is like place of worship or library or playground -> sometimes (ok)
- [48m | peer_interaction_and_social_rules] likes to be a helper -> yes (ok)
- [30m | concepts_and_following_directions] follows two step instructions like put the toy down and close the door -> sometimes (ok)
- [30m | concepts_and_following_directions] shows she knows at least one color like pointing to a red crayon when you ask which one is red -> yes (ok)
- [30m | object_permanence_and_problem_solving] shows simple problem solving skills like standing on a small stool to reach something -> yes (ok)
- [36m | safety_awareness] avoids touching hot objects like the stove when you warn her -> sometimes (ok)

3. Genex Output

Domain	Dev age	Gap	Tier
Movement / Physical	48	0	no_special_support
